POSITIVE VIBES VISION

ART Competition

Today our country faces new norms and new challenges as a result of the COVID -19 global pandemic. However, as a people we are undaunted and resilient as we seek to adjust to this new dispensation and forge ahead to build a new and diverse world of knowledge, skills and ideals. It is against such a backdrop that members of the Point Fortin Borough community are invited to participate in a beautification project that seeks to uplift the visual outlook of key areas in the borough. This is proposed to be done in several phases of which the first will seek to enhance the aesthetics surrounding the entrance to the PFESS compound.

To this end members of the community and environs are invited to take part in a Visual Art Painting Competition. Artworks must reflect the overarching theme of the project – Point Fortin: Positive Vibes Positive Vision – and may portray various aspects of our beautiful borough.
